

LAKE OF THE WOODS MUTUAL WATER COMPANY

NOTICE OF A MEETING OF THE BOARD OF DIRECTORS

Date: October 7, 2026

Time: 10:00am.

Teleconference Via: Zoom.com Id# 825 6479 4298

Phone #669-900-9128

AGENDA

1. Call to Order
2. Adjustment of Agenda Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
3. Public Comments from eligible attendee (3 minutes/person max time 30 mins)
4. Water Main Replacement Project - South Tank & Line Replacement & SCADA Grant Phase 3 Update 9.3 million
 - Provost & Pritchard Contract Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
 - Forestry Service Permit Amendment
 - Spring License Renewal
 - South Tank access easement Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
 - SCADA, Springs Mapping, South Tank update
5. Generator Grant Update Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
6. Regional Water Project Application & Annexation Update
 - MOU Update & discussion
 - Annexation Timeline
7. Distribution Operators Report
 - Generator rental Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
 - Distribution operator purchases Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
 - No Outside Watering Enforcement Notices Update
8. Treasury Report Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
9. Approval of Minutes of 9-2-2026 board meeting Motion_____ Second_____ Ayes_____ Nays_____ Absent_____
10. Future Agenda Item

Closed session – **None**

Adjournment

Motion_____ Second_____ Ayes_____ Nays_____ Absent_____

Board of Directors

Joan Kotnik, President
Daryl Beckstrand, Vice President/ Treasurer
Maria Dreier, Secretary
Martin Morehouse, Director
Richard McGee, Director

General Manager

Pamela Jarecki

Office Manager

Brenda Fessia

Operations Manager

Erik Alcala

Next board meeting November 4, 2026, at 10:00am, on Zoom and in the office.

Agenda will be posted on the website (<https://www.lakeofthewoodswater.com/>) 4 days before meeting.

Shareholders are invited to attend. To be placed on the agenda please email us at lowwaterco@gmail.com.

For all other questions please call 661-245-1448/661-917-7317

LAKE OF THE WOODS
OPERATIONS REPORT
September 2026

FACILITIES, EQUIPMENT

- No issues

DISTRIBUTION SYSTEM

- The six new Neptune meters we ordered have arrived. We are still waiting for an update on the meters that were sent in for possible warranty coverage.
- A new meter has been installed for the will-serve at Lot 829. AEL will be working on the final will-serve the weekend of 10/3/26, which will be installed for Lot 744.

WATER QUALITY & WELLS

- Blending station nitrate has remained around 2.3 mg/L – 2.7mg/L. The MCL (maximum contaminant level) is 10.0 mg/L for nitrate.
- Lead and copper samples have been taken, we are currently waiting for the last results from the lab.
- Annual disinfection byproduct samples have been taken. These tests identify any harmful chemical compounds that can unintentionally form when disinfectants such as chlorine react with natural organic matter in the water.

LOW TRUCK

- The LOW truck was picked up on 9/21/26. The warranty company covered the motor mount, oil pump, and oil pump sensor. We are currently waiting for quotes for the catalytic converter replacement.

*JUNE well 7 flow meter was stuck and not turning while the well was on (was fine on the 20th, found not working on the 23rd). Operator took apart the meter and found that sediment was preventing the disk from spinning, causing the meter to not detect a flow. Flushed out the sediment, and the meter is now properly detecting flow.
**Septneber had 3 major leaks.

Lake of the Woods Water Company
Meeting Minutes 9-2-2026

In attendance Via Zoom: Pamela Jarecki, Richard McGee, Joan Kotnik & Carlos Bravo Self-Help Enterprises (SHE)

Public attendance Via Zoom: Pam McGee

Office: Maria Dreier, Erik Alcala & Brenda Fessia

Absent: Daryl Beckstrand & Martin Morehouse

Public attending at the office: None

1. **Meeting called to order** at 10:00 AM
2. **Adjustment of Agenda:** Maria Dreier motioned to add T Mobile under 10 to the agenda, Joan Kotnik second it 3/0/0/2 absent
3. **Public Comments:** None.
4. **Water Main Replacement Project - South Tank & Line Replacement & SCADA Grant Phase 3 update 9.3 million:**
 - Jeane is working on the budget and will get it over to us for review.
 - **SHE Contract** – Maria Dreier motioned to approve SHE submitting quarterly reports and claims for our Phase 3 grant, Joan Kotnik second it 3/0/0/2 absent.
 - **Provost & Pritchard contract** – Nothing new
 - **Forestry Service Permit Amendment Resolution - Special Use Permit SF299** – Nothing New
 - **Spring License Renewal:** Nothing yet
 - **South Tank access easement:** Nothing new TA funding is on hold until approved
 - **SCADA, Springs Mapping, South Tank update** – Nothing new.
5. **Generator Grant Update:** Nothing new on this project. We will include the info for the generator to Jonathan Miras (DFA) with the response to Phase 3 above. DFA is unclear if they will combine these into one grant or two separate grants.
6. **Regional Water Project and Annexation:**

MOU: Dee Jaspar sent FPPUD's attorney's responses to LOWMWC'S 05/26 proposed MOU to FPPUD staff on 07-24-26. But they weren't sent to the FPPUD Ad-hoc or Board. The Ad-hoc plans to meet and review the attorney's responses. DFA has advised the Consolidation Construction Grant does not require a completed MOU. DFA also advised the funds from the Construction Grant may be released prior to an MOU's completion. DFA advised the Construction Grant will have some "special conditions" but no explanation of what those might be. Maria Dreier will be joining the state meetings going forward.

LAFCo: Tom Dodson was planning to submit the Annexation application to LAFCo in September for October approval, but FP does not want to do that yet because the grant agreement for funding hasn't been approved yet.

Designs:Annexation 90% designs were sent to FPPUD for their review. FPPUD needs to review and submit suggestions to Dee Jaspar. They will be sent to us to review and submit suggestions but unknown if our suggestions will be incorporated before the plans are submitted to the State for review. Tom Dobson is still working on the biological and cultural documents.

Parcel B Tank Replacement: FPPUD received a bid from Superior Tanks. Unknown if any other bids were received. Unknown if the one year deadline extension for the \$891,500 grant from Kern County/HUD was approved. The previous deadline ended last month. If not, FPPUD is considering using funds from their USDA Replacement Account.

Well #8: Nothing new. Still waiting on the March 2027 trial date to get full possession of the property.

FPPUD Pipeline project and Well #8: Funding agreement should be sent out by August 1st and fully executed by the end of August. It will have contingencies and deliverables before releasing funds for well #8 due to ownership issues of the well #8 property. Bio and cultural information was incorporated with other documents that were previously submitted. Jonathan Miras (DFA) will check with the State's Enviro Dept to see if that is sufficient.

Annexation Timeline –

 - Annexation designs have been sent to FP, we are still waiting to get a copy, may not get them until the state does.
 - The annexation funding app was submitted to the state except the Environmental and designs.
7. **Distribution Operator Report:**

FACILITIES, EQUIPMENT & PARTS

 - No issues

DISTRIBUTION SYSTEM

 - We had 6 meters in our system that the meter reader could not pick up the transducer, most likely due to issues with "RF" radio frequency. These meters and transducers were replaced with new backup meters/transducers we had in stock, and the old ones were sent into Ferguson to review for warranty. Ferguson informed us that the transducers on the meters are covered under warranty for the first ten years. For years 11 to 20, coverage is prorated. Joan asked Erik to find out if the transducer could be purchased separately, since that was the part that failed. Erik explained any attempt to replace just the transducer would break the "seal" and therefore void the warranty. Erik ordered 6 more new meters/transducers to replace the ones he just used.
 - A new meter has been installed for the will serve at lot 867. There are two other will-serve lots that indicated they wanted meters to install.

WATER QUALITY & WELLS

- Blending station nitrate has remained around 2.6 mg/L – 2.9mg/L. The MCL (maximum contaminant level) is 10.0 mg/L for nitrate.

LOW TRUCK

- It's been 5 weeks and the LOW truck is still in the shop for repairs. It was taken in to have the motor mount replaced which Motor City forgot to do the last time it was there. While taking it in, the check engine light came on. Three weeks later Motor City said the check engine light is because the oil pump sensor and the catalytic converter needed to be replaced. The truck has 118,000 miles on it. Motor City has a policy that they will not replace an oil pump sensor unless the customer agrees to also replace the oil pump. The oil pump is functioning correctly and doesn't actually need to be replaced. The warranty company will only cover the motor mount and the oil pump sensor. They will not cover the oil pump and the catalytic converter. They want \$4,125 to replace just the converter. Erik is getting a price from Martin's Garage in Lebec for the replacement of the catalytic converter.
The board directed Erik Alcala to get only the motor mount done through Motor City with the warranty and the rest that is not covered, done elsewhere.

Distribution operator purchases – Maria Dreier motioned to approve the tool list Erik supplied and use the credit from USA Blue Book, Joan Kotnik second it 3/0/02 absent.

Wells – June readings

- Wells from last month are down -6 ft to up 0.8 ft - average -2 ft, wells 1, 2, 5 & 7 all stayed the same
- January 2024 are up from 17.5 ft to 24.5 ft - average 21 ft
- January 2025 are down from 2.7 ft to up 19.2 ft - average 9 ft
- January 2026 are now all up from 10 ft to 35 ft - average 27 ft
- From this time last year, they up 18.5 ft to up 31.5 ft - average 25 ft

Average is for active wells only

Generator Rental – Continue renting.

AMI discussion/vote – remove from agenda.

Well #5 – The aquifer levels are high enough that we could consider bringing Well #5 back online. However, we don't know what the water quality will be since that well has been offline since approximately 2014. Well #5 does not have internal pipes or a pump. It has the casing from when it was originally drilled to 170-180 feet. In order to determine if the water quality in well 5 is potable, we need to have it pumped out several times to get a clean sample and lab tests taken. Estimated cost under \$10,000. Maria Dreier motioned to spend a maximum of \$10,000 to see if well #5 water quality passes so it can be a viable well again, Joan Kotnik second 3/0/0/2 absent.

Drilling a replacement well for Well #1: we gathered some info on well drilling and it is around \$60,000 for a 250 ft well, hammer drilled with a 6-inch casing, the gravel & pump. This does not include a building around the well head, electrical to the well head and SCADA (approximate total \$100,000). If Well #1 were to be replaced (due to it being past its life expectancy) having Well #5 back online to offset Well #1's production would make that transition easier. Something to consider for the near future

North Tanks Maintenance: Assuming the upcoming divers report shows the tanks are still in good condition with only minor deterioration of the interior coating, it is more cost effective to pay for each of the tanks to get the interior sand blasted and a new epoxy coating applied. Essentially bringing the tanks back to its "new condition" and therefore restarting the clock on the tanks life expectancy. Epoxy coating for 225,000 gallons tank interior and painting the outside would be around \$200,000. Replacing the just the 225,000 gallon tank could cost \$400,000 to \$500,000. Something to consider in the near future.

No outside Watering Enforcement Notices Updated: None

Maria Dreier motioned to approve the distribution operator report, Joan Kotnik second it, 3/0/0/2 absent.

- 8. Treasury Report:** Blending station phone line went up almost \$90.00 per month plus fees and taxes from \$230.00 to \$326.00. Next year it will go up another \$120.00 per At&t.

Rate Resolution: Maria Dreier made a motion to approve the Rate Resolution, Richard McGee second it, 3/0/0/2 absent

401K discussion/vote: Richard McGee motioned to add the 401K with Vestwell at a present annual cost of \$1068 so our employees have the option of participating, Maria Dreier second it, 3/0/02 absent.

Profit Loss is at 67.66%.

Richard McGee made a motion to approve the Treasury Report, Maria Dreier second it, 3/0/0/2 absent.

- 9. Approval of the minutes:** 8-5-2026 board meeting minutes & the 8-14-2026 & 8-27-2026 special board meeting minutes, Maria Dreier made a motion to approve the 8-5-2026 board meeting minutes, & the 8-14-2026 & 8-27-2026 special board meeting minutes, Richard McGee second it, 3/0/0/2 absent.

- 10. Future Agenda Items** – None.

- 11. T-Mobile** – T-Mobile sent another request to have us consider allowing them to install a cell tower on the North Tanks infrastructure. The Board is still not interested, and Pamela Jarecki will notify T-Mobile.

Closed Session – Maria Dreier motioned to have AEL do the 2 will serves that requested a meter at the cost of \$7,000.00, Richard McGee second it 3/0/02 absent. We had another bid from Sierra, but it was a lot higher. Pamela Jarecki will reach out to our attorney to draft a letter letting the other 3 will serves know that they have forfeited their will serve rights.

Maria Dreier motioned to adjourn at 11:27 pm, Richard McGee seconded 3/0/0/2 absent.
